Sarah Clifford MSAAc, M.CThA
Complementary Therapist

A holistic bespoke approach to a healthier and happier way of living.

Sarah Clifford began her fascination with the harmony of the mind, body and spirit well over ten years ago. After practicing Reiki for many years in Asia, Sarah was introduced to Auricular Acupuncture in regard to treating addictions. Whilst witnessing the incredible success of this treatment, she carried on to finish the Comprehensive Diploma in Auricular Acupuncture together with ElectroAuricular Therapy.

This then led to an interest in Ayurveda therapies. The purpose of Ayurveda is to connect the body, mind and spirit. Once this balance has been reached, it encourages wellness and prevents illness.

Bringing together these two therapies, with a range of other complementary treatments, enables Sarah to develop bespoke therapy programmes tailored to suit each individual.

Your first treatment will include a free half hour consultation and diagnostic before your initial treatment.

Sarah is a qualified member of the Society of Auricular Acupuncture and the Complementary Therapists Association.
